JobsInRobotics.com

ABOUT US

JobsInRobotics.com is the premier site for employers seeking top-rated specialists from all facets of the robotics industry. With over 150 registered job seekers, our talent pool features qualified and experienced professionals ranging from Chief Robotics and Technology Officers to Systems Engineers and everything in between. We connect you directly to the people you'll want to hire, making your recruitment process faster, more efficient and more effective.

FEATURES FOR EMPLOYERS

- Easy job posting process - post in minutes
- Jobs are promoted to our entire audience across various channels: dedicated eNewsletters, social media, online articles, and more.
- Email alerts of resumes that match your search criteria
- Add colleagues to your account to share & collaborate on the candidate search
- Traffic metrics and reporting 24/7
- Links to personal recruitment pages & social media sites

FEATURES FOR SEEKERS

- Search & apply on the go; mobile friendly
- Narrow searches by salary, skills & more
- Import resumes from LinkedIn
- Customize job alerts based on search
- Easily share & recommend jobs
- Email alerts of the newest job postings

Maximize Your Recruiting with the Most Influential Industry Brand

As the #1 resource for robotics news and analysis, **Robotics Business Review** drives online engagement for thousands of unique **robotics professionals** daily. Powerful content, audience and marketing expertise increase this to deliver the results you need.

RoboticsBusinessReview.com

Whatever Your Recruitment Needs, We Have a Solution!

Post a Job

Your jobs will be posted on JobsInRobotics.com *and* the job board as well as listings are promoted across various Robotics Trends and Robotics Business Review media outlets - eNewsletters, social media channels, online editorial, and more!

Choose from a variety of packages available:

- 1 Job for 30 days*
- 1 Job for 60 days*
- 3,5, or 10 Job packages*

All listings are mobile optimized and included in job eNewsletters sent weekly to registered seekers.

**Need something else? We'll design a custom package that fits your needs. Contact Leo Baryudin at 508-663-1500 x235 or lbaryudin@ehpub.com.*

The screenshot shows the JobsInRobotics.com website interface. At the top, there is a navigation bar with 'Home', 'Post Resume', 'Find a Job', 'Employer Directory', and 'Resources'. A search bar for 'FREE JOBS IN ROBOTICS' is visible, along with 'Employers Login' and 'Jobs Seeker Login' buttons. The main content area features a job listing for 'Application Engineer' at 'Rixan Associates, Inc.'. The listing includes the company name, approximate salary (\$60,000 - 75,000.00 Per Year), location (Dayton, Ohio), country (United States), industry (Programmer), position type (Full Time), and experience level (2 - 5 years). The job description states: 'Lead Programmer and Project Manager for a team of engineers and technicians to support customers. Provide programming for robots and robot based Integrated systems.' Skills required include: 'Ability to program Robot Systems (state brand experience)', 'PLC experience and programming ability (state brand experience)', 'Good mechanical aptitude', 'Visual Basic essential', 'SolidWorks familiarity', 'Machine Vision experience', and 'Ability to work as a team and/or alone on field assignments'. There are buttons for 'APPLY FOR THIS JOB', 'Save this Job', 'ShareThis', and 'More Jobs Like This'.

Access Resumes

Take a proactive approach and hand pick your perfect hire with access to our extensive database of qualified candidates. You'll get unlimited resume views for 30 days, available with or without a job posting.

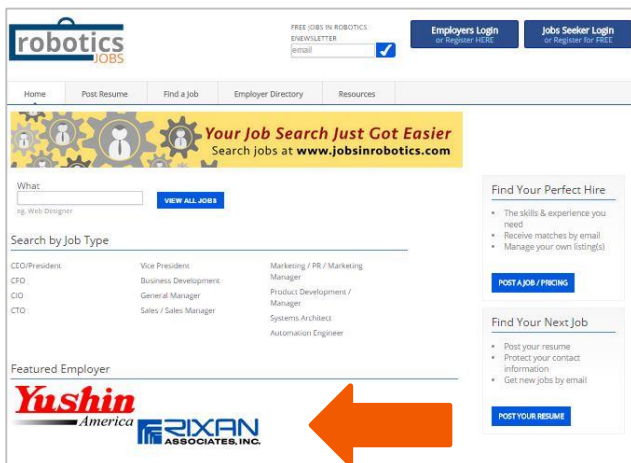

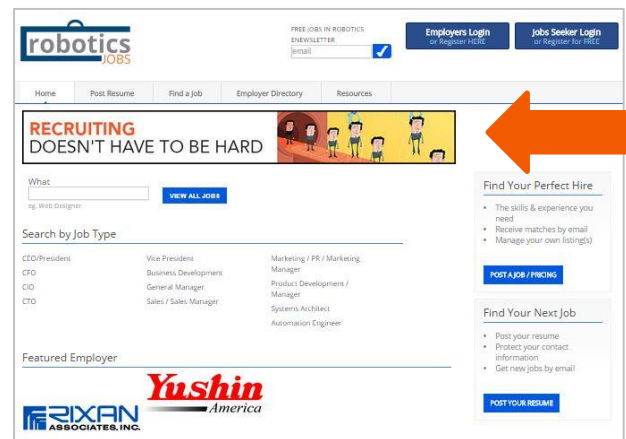

The screenshot shows the 'Resume Search' interface on the JobsInRobotics.com website. The navigation bar includes 'Home', 'My Account', 'Find Resumes', 'Post Jobs', and 'Available Offers'. The 'Resume Search' section has a search bar with a 'Browse' button and a 'Resume Agent' dropdown. Below the search bar are several filter categories: 'Enter Keywords', 'Job Type' (with a 'Select Job Type' dropdown), 'Location' (with 'United States' selected, and 'Select State' and 'Zip Code Radius' dropdowns), 'Minimum Experience' (with a dropdown), and 'Minimum Education' (with a dropdown). The search results display two resume entries. The first entry is for 'Engineering Consultant at Michael Regalbuto Consulting', with a description of their experience in robot and automation system design, configuration, programming, and troubleshooting. The second entry is for 'Debbie Holmquist', a dynamic engineer with over twenty years of experience in product and process design, manufacturing, and process/quality control. Both entries include 'Preferred Job Roles' and 'Last Updated' dates, and a 'View Resume' button.

Extend Your Reach

Make your company and open positions stand out even more with these additional marketing opportunities.

Featured Banner

Place a banner at the top of JobsInRobotics.com's homepage, front and center for all job seekers who visit the board to see and direct them directly to your posting.

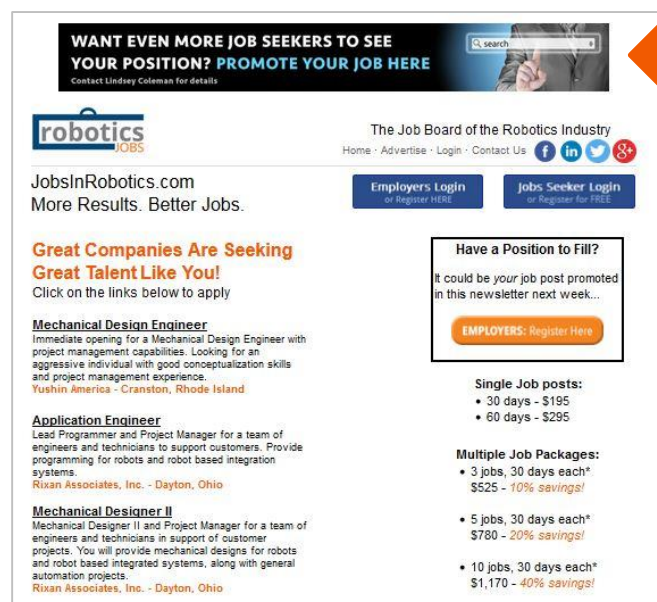

Featured Employer

As a featured employer, your logo will be displayed on the JobsInRobotics.com homepage, linking directly to a company page where all the jobs you have listed will be shown.

eNewsletter Sponsorship

Place your banner at the top of the Jobs eNewsletter, sent to all of Robotics Jobs' registered job seekers every week.
